

CONTINEST® | SPACE TO GO

## CN CP – CHECKPOINT

### Deployable multifunctional & modular solution.

Can be easily deployed and set up in any climate and risk environment. The system can generate its own power need and provide the suitable protection level to different threat levels.

The fit out can be medical, civilian or any other function.

The units can be delivered fully equipped with surveillance systems on the checkpoint as well with perimeter protection systems, including the production of wastewater.
