CONTINEST® SPACE TO GO

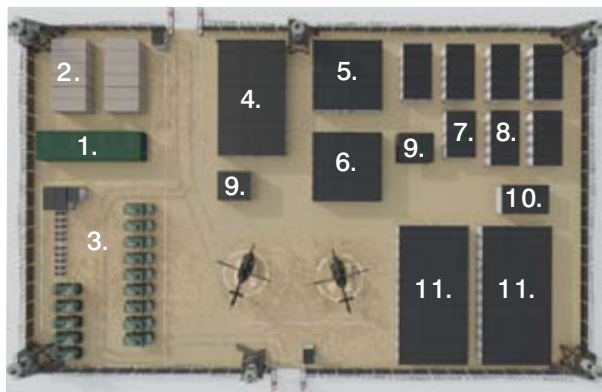

FORWARD OPERATING BASE (FOB)

Continest is an innovative market-leading foldable container manufacturer. The containers are uniquely developed for quick and easy set-up and transport; thus, they decrease fuel consumption and improve deployment efficiency.

The Continest units are specially developed for various purposes in the fields of defence, medical and disaster management, with several custom-made add-on solutions such as: ballistic protection, sanitary block, renewable power storage and generation.

The Continest FOB represents the next generation of mission support solution:

- ▶ Efficient deployment and redeployment due to our foldable technology
- ▶ Diverse applications due to the modular and multifunctional systems
- ▶ Decreased logistical and operational costs as well as risk mitigation
- ▶ MOTS and COTS compatibility
- ▶ NATO interoperability due to standardized technological platforms

1. MSR
2. Storage
3. Motorpool Maintenance
4. SF/SOF Isolation Building
5. C2 Workspace
6. Field Kitchen
7. Bathroom
8. Staff Living Facilities
9. Gym Box
10. Toilet
11. Infantry Platoon

FORWARD OPERATING BASE CONCEPT:

Isolated Workspaces for Staff Groups

- ▶ BLACK HOLE (Acoustic / Radio-electronic protection and HVAC support)
- ▶ CN Hybrid unit ensures continuous command and control

Isolated Buildings for Units (CN 20)

- ▶ Storage for sensitive equipment and medical room for casualty care
- ▶ Separate living spaces
- ▶ Planning rooms
- ▶ Sanitary units

Living Facilities for Staff Members (CN 10)

Field Hospital

- ▶ Role 1 / 2 / 2+

Field Kitchen

- ▶ Capable of delivering 500 meals every 3 hours
- ▶ Plug and play system; only electrical and water supply connections are required

Mobile Shooting Range

- ▶ 25m shooting distance, variable viewing conditions, 360 degree protection, TTPs concealment

Storage (CN Cargo)

Motorpool - Support site

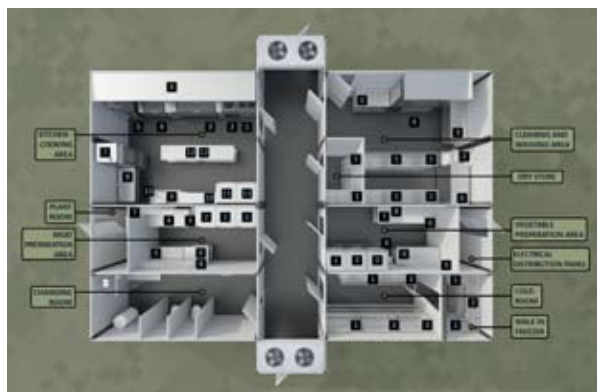

CONTINEST® | SPACE TO GO

DEPLOYABLE SELF-CONTAINED FIELD KITCHEN

Fully equipped and independently operating field kitchen unit consisting of 10 fixed frame 20-foot containers

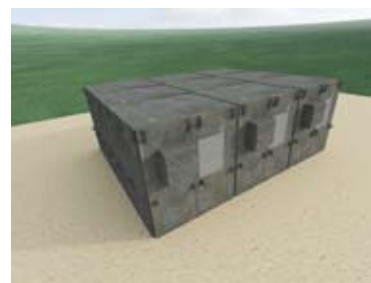

- ▶ Easy to deploy
- ▶ Plug and play system; only electrical and water supply connections are required
- ▶ Capacity of CN field kitchen delivers 500 meals every 3 hours
- ▶ In cooperation, and based on the SoW of HDF

CN SHIELD – Ballistic Wall

Additional Modular Ballistic Wall / Shield System Generation

- ▶ Ballistic protection is ensured by the SSAB Armox 600T
- ▶ Protection against 0.22 mm, 9mm, 5.56mm and 7.62 NATO caliber and shrapnel
- ▶ Modular system
- ▶ Easy to install onto CN 20 and CN Hybrid
- ▶ Can be applied to stand alone and modularly assembled containers
- ▶ Stackable transportation of the shield panels on top of one another

Certifications:

- ▶ ISO 9001, ISO 14001, AQAP 2110
- ▶ NATO Stock number
CN10: 5410-51-0009513
CN20: 5410-51-0009514
Mobile Shooting Range: 5410-51-0009698
